We need your help to Plan the Future!

The City of Austin and Mower County have partnered to develop Comprehensive Plans. We need your help and ideas! What things do you want to see? What would make your community a better place for everyone?

WHAT IS A COMPREHENSIVE PLAN?

A Comprehensive Plan is a guide of what a community wants to be. It will help shape your community's future growth, protect what is valued, and make improvements that community members think are important.

It's like planting seeds to make your neighborhood better. You're helping it grow, keeping the good stuff safe, and making things even better!

VISION STATEMENT WORD GAME

Insert words to complete a vision statement. A vision statement helps us know the things you like of your community and what you want for the future. Choose words from the **WORD BANK** below or use your own to create a vision statement for your community:
